# PASSIVE VOICE

We use the passive voice when we don't know who did the action or the action itself is more important.

We can only form a passive sentence from an active sentence when there is an object in the active sentence.

The passive voice is less usual than the active voice. But sometimes a statement in passive is more polite than in active voice.

The passive is formed with the verb **to be** and the **past participle** of the main verb.

**Present Simple** → **am / is / are + past participle**

**Past Simple** → **was / were + past participle**

**Present Perfect** → **have / has been + past participle**

**Future Simple** → **will be + past participle**
